FUTURE  
ENGINEERS SCHOLARSHIP

## **Re: The Future Engineers Scholarship – Celebrating Our Fourth Year !**

**Dear Boston Chapter of ASHRAE Member,**

The Boston Chapter of ASHRAE Student Activities Committee again has the privilege of administrating the **Future Engineers Scholarship 2009**. The legacy of our collaboration with our generous donor, Mr. Teerachai (Chai) Srisirikul, was established in 2006. This unique scholarship allows our chapter to offer financial assistance to worthy engineering students. The funds for the scholarship have been raised by Chai as the result of a golf outing that is held every September.

### **Legacy**

Since 2006 we have awarded nearly **forty** scholarships of \$2000 to high school seniors and first or second year college students **pursuing and engineering education**. This year we will award **fourteen scholarships of \$2000 each**.

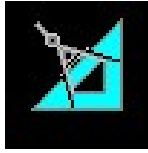

### **Help Us Find Worthy Recipients**

Again, we need you to help us find recipients of the scholarships! Please access the **[ASHRAEboston.org](http://ASHRAEboston.org)** website and **download a [pdf format copy of this application](#)** which you may then email to anyone you think would benefit from our scholarship. Students do not have to have an ASHRAE connection to be awarded a scholarship. We distribute this information to all high schools and colleges in Massachusetts.

Thank you,

The Boston Chapter of ASHRAE Student Activities Committee

## FUTURE ENGINEERS SCHOLARSHIP

Due: March 27, 2009

### **Who We Are**

The mission of the Student Activities Committee of the Boston Chapter of ASHRAE is to encourage motivated and promising young men and women to pursue undergraduate studies in the ***field of engineering***.

### **Our Legacy of Promise**

It is critical to the future of all mankind that progressive societies promote, foster, mentor, and educate the engineers of tomorrow. Our responsibility as engineers means that we must encourage young people to pursue a career in engineering and that we must help them achieve excellence. Our highest goal is that the recipient of our scholarship grows and develops into a leader in the engineering field, that his or her achievement is our legacy.

### **Eligibility and Selection Requirements**

Candidates for the scholarship must be either seniors in high school or first or second year college students. Candidates must be enrolled in an ***engineering curriculum***, or intend to apply to an engineering program if candidate is a high school student.

### **Mandatory Eligibility and Selection Requirements**

Candidates for the scholarship must provide a 2"x2" passport type photo and provide permission for their photo to be published in association with the scholarship.

### **Deadline and submission information**

The application due date is March 27, 2009. Scholarship notification takes place no later than May 1, 2009. If additional applications are needed, this form may be photocopied and distributed as needed. Mail completed application materials to:

Boston Chapter of ASHRAE  
P. O. Box 393  
Randolph, Massachusetts 02368
